### CUBA

The Institute's estimates of Cuban military strength showed the effects of Soviet arms and technical aid. It said Castro has about 70 Soviet-built MIG fighters and an undisclosed number of Soviet-built IL 28 Beagle bombers. The bombers have a range of 1500 miles, fly at below the speed of sound, and can carry two tons of bombs.

The fighters are MIG 17 and MIG 19 models, not the
